Indus International School Pune (IISP) is an all-inclusive school. We believe in creating leaders for tomorrow by preparing students for a Volatile, Uncertain, Complex and Ambiguous world - VUCA.

We advise our prospective families and applicants to review our website, visit our school and connect with our Admission Team, in order to get all the relevant details and learn more about our school, before formally applying. **Admission are offered throughout the academic year.** Prospective families could visit us individually (please schedule an appointment in advance) or on our Open Days.

Once you are certain about our school, then you could formally apply by submitting the documents and following the admission process. Admissions are based on merit, review of the past school reports/academic performance, availability of seats, the applicant's age at the start of the academic year and online or personal interaction/interview. Families are required to disclose / submit complete information of the applicant's past performance and conditions. All applications are reviewed by the Principal and the school would confirm its decision within a week. Parents and applicants are requested to respect and abide by the school's decision.

While most students join school at the beginning of every academic year, we understand that some may not be able to do so. Based on the availability of seats in classrooms and beds in the boarding home, we are happy to admit students throughout the academic year.

Age and Eligibility:

Parents are advised to review our age range and seek guidance due to the various grade naming systems that are used by different schools. The school does not discriminate between race, creed, color, gender or national origin. We do, however, limit the number of students based on our capacity to provide the required learning support and would like to ensure that all of our students flourish and succeed at school.

Inclusive Education:

We pride ourselves on being an inclusive school. We strive to cater to diverse needs of students by ensuring that each student gets equitable access to the learning curriculum. Learners with diverse learning needs are scaffolded through inclusive support in the classroom, remediation and inclusive access arrangements to facilitate their learning process as per the individual needs. We have a competent team of Inclusive Educators who cater to students' needs in all the four IB programmes, PYP, MYP, DP and CP. To avail the inclusive support and IB access arrangements for the assessments in the MYP, DP and CP, the learner needs to be formally assessed. At Indus, we are dedicated to bringing out the best in each child. The Inclusive Education team goes by the belief and motto, "**All children can learn**".
